Seeking other fields to conquer after displacing Old Dobbin on the city's pavements, motor trucks are now chugging toward dominance on the rural highways. Their latest

tor in the movement of the nation's from one end of the grain belt to the

shown by a survey just completed by the Travel and Transport Bureau of the B. F. Goodrich Rubber Company. Questionaires were sent out to nearly 2,000 country elevators by the bureau true position in the grain fields,

Those questionairres answers which gave percentage comparisons of grain receipts by horse and wagon as compared with motor truck grain haulage showed that 26 per cent. of the grain is being received at the elevators by truck. In other words, the truck is carrying one-fourth of the entire grain crop of many sections of the Mid-west, a truly remarkable fact years ago the horse and wagon had year. The state board of Agricultion and rules. the field to themselves.

The territory covered by the questionnaires included Oklahoma, Arkan-Missouri, Kansas, Montana, Idaho, Iowa, Nebraska, Illinois, Wisconsin, Minnesota, and the Dakotas. Answers were received from a representative number of elevators in each

According to the survey, farmers in Nebraska, Minnesota, and South Dakota are employing motor truck in other sections of the grain belt. In these states, practically all elevators are being equipped with automatic scales and dumps so that the maximum service can be obtained from

A tenor of the replies received indicated that the farmers, and elevator men as well, are becoming enthusiastic truck advocates and see a great future for them throughout the grain

belt. "At the present time," said Ely Salyard & Company, Minneapolis, "twenty-five per cent. of the wheat in North and South Dakota is hauled by trucks. There is one truck for every 30 farmers. The truck system will increase 25 per cent this year alone and in three years farmers will be marketing all their grain and live stock via the truck system."

The Central Graineries Company, of Lincoln, Neb., which operates about 70 stations in Nebraska and Kansas, said that 50 per cent, of the wheat is being delivered by truck in its territory.

"The truck certainly is a substantial help in bringing wheat to our elevators',' the company said, "as they can haul and deliver it much faster. They are proving s speedy that with the car situation as tight as it is now we have to hold the trucks back.

"In Western Nebraska," says the Crowell Lumber and Grain Company, Omaha, "Where grain is hauled long distances, nearly all of it is hauled by trucks. Some elevatrs claim they do not receive a single load during the day by wagon. With the new facilities that the truck dump is furnishing it is only a questin of a short time until practically all farmers will be using trucks to deliver their grain."

The number of inquiries about agricultural opportunities in the South one-half of Township 19, N., R. 14 W.; and also the south one-half of Township 20, N., R. 14., Gila and Sait River Base and Meridian.

Any and all persons claiming adverses the South one-half of Township 20, N., R. 14., Gila and Sait River Base and Meridian.

Any and all persons are hereby warned from in any manner trespassing on any of said lands under penalty of law.

(Signed) A. B. FANCHER. Dated Kingman, August 14, 1920.

First insertion August 14, 1920.

The same enthusiastic idea about trucks is held by elevator men in all sections of the grain belt, even where

sections of the grain belt, even where failure of crops in past years has prevented farmers from investing heavily in trucks as yet.

The service which trucks have rendered wherever used has been threefold. It has saved valuable time for the grain growers at a season when every hour is precious. It has enabled him to get rid of his crop and prevent loss formerly incurred from piling it in fields and inadequate ware houses. Moreover, it has proved of great assistance to the railroads, permitting expeditious loading of cars and relieveing the roads of carrying wheat on short hauls.

It is evident from the reports that the truck came to the grain grwers just in the nick of time, enabling English were confined on the night of them to handle the bumper crop in a way which could never have been equaled with horse and wagon. The truck stepped into the breach and has proved such an efficient helper that it has won a life-long job.

TRUCKS vs. "DOBBIN" HEAVY CROPS IN WESTERN STATES

From Chicago, through Illinois, achievement is in giving America's Iowa and Missouri, on to the Guif farmers a much needed lift in traps- of Mexico, and to the Pacific Oceanporting the bumper grain crop of 1920.

Almost overnight, it seems, the truck has become a tremendous factor in the movement of the nation's food supply. A few years ago, only a few farmers recognized its full possibilities but today it can be seen from one end of the grain belt to the carrying full loads of golden grain onward toward their destination.

This fast growing importance of notr trucks to the grain grower is a shorted by the santa Fe Railway—the crop yields this year have been heavy. If there is a shortage of farm stuff, certainly it cannot be charged to the South-stage of farm stuff, certainly it cannot be charged to the South-shifting as shortage of farm stuff, certainly it cannot be charged to the South-shifting as the committee that will man full age the next big southwest road race, announced today that the race will be staged the latter part of February, west. The season throughout has been ideal. In some spots there has been ideal. In some spots there has been a little too much moisture, in others, not quite enough, and in still others, a bit of frost at the wrong time; but taking the growing period as a whole, history does not show a should file their application to locate the middent mannounced to that will man full age the next big southwest road race, announced today that the race will be staged the latter part of February, west. The season throughout has been ideal. In some spots there has been ideal to the south-stage of in November, as previously announced, and that it will run from El Paso to San Diego, Cal., instead to Phoenix, Ariz. The first prize will be \$15,000.

Mr. Naquain said: "I did not intend the wound of the committee that will man full age the next big southwest road race, of the Treaty with the Wyandotte Nation of the committee that will man full age the next big southwest road race, it is age the next big southwest road race, and that it will man full age the next porting the bumper grain crop of in all the states traversed by the grain onward toward their destinamotr trucks to the grain grower is as a whole, history does not show a better one.

bushels of wheat in May to 150,000,-000 bushels at harvest time, and as the threshers proceed with their work. and the answers prove the truck's the predictions continue to have an upward tendency. It wil be the second largest wheat crop on record in the state. Corn, a particularly good and go by Ajo and Yuma. This will crop this year, will run close to 165,-000,000 bushels. Alfalfa, the grain sorghums, rye, oats, potatoes, sugar beets, vegetables and broom corn next Monday." have gone far beyond the estimates made by the experts.

addition, cotton, has had a wonderful will be run under the A. A. A. saucture expects that the final returns will show it to be the best in volume of production and also in value.

The Arkansas Valley of Colorado will count 1920 as its best year. Everything has done well. Yields of alfalfa, wheat, cantaloupes, watermelons, sugar beets ,vegetables and fruit are equal to or ahead of those

transportation on a greater scale than better. Corn, wheat, rice, oats, pea-

melons, sugar beets , vegetables and fruit are equal to or ahead of those of any previous seasor of a million dollars worth of farm stuff, will do as well this year; probably better. Corn, wheat, rice, oats, peanuts, broomcorn, potatoes, fruit and vegetables came to harvest in prime condition, and cotton, which was hurt in the spring by a dry spell, recovered under more favorable weather conditions, and the yield will exceed the estimates by a big margin,

Reports from the Rio Grande, Mesilla, Rincon, Gila, Estancia, Portales and Pecos Valleys of New Mexico, as well as from the so-called dry farm sections, indicate good yields of grains, feed crops, vegetables and from year.

Arizona will write new records this year. The big success i with cotton in the Salt River Valley, but everything else under the Roosevelt data has turned out statisfactorily—laffa fa, exceptionally well. Good crops have been grown in the Parker; and Prescott districts, and along the Santa Fe's main line in the north part of the state. There is a big potato yield in Coconino County.

The yield of fruit and farm products in California has been one of the heaviest that has ever been harvested. There has been no trouble and disposing of all of the products at good prices.

The number of inquiries about agricultural opportunities in the South-west is the largest in ten years, in the most part of the state. There is a big potato yield in Coconino County.

The pried of fruit and farm products in California has been one of the heaviest that has ever been harvested. There has been no trouble and disposing of all of the products at good prices.

The number of inquiries about agricultural opportunities in the South-west is the largest in ten years, in the west is the largest in ten years, in the second prices.
